

Activity 7 question 2: algorithm to play Elevens.

1. Deal 9 cards, one in each of 9 spots.

2. Check whether
(a) 2 cards on board with sum 11

OR (b) J Q K on board

if so,

remove those cards
replace with dealt cards
go to step 2.

if not,

cards left on board?

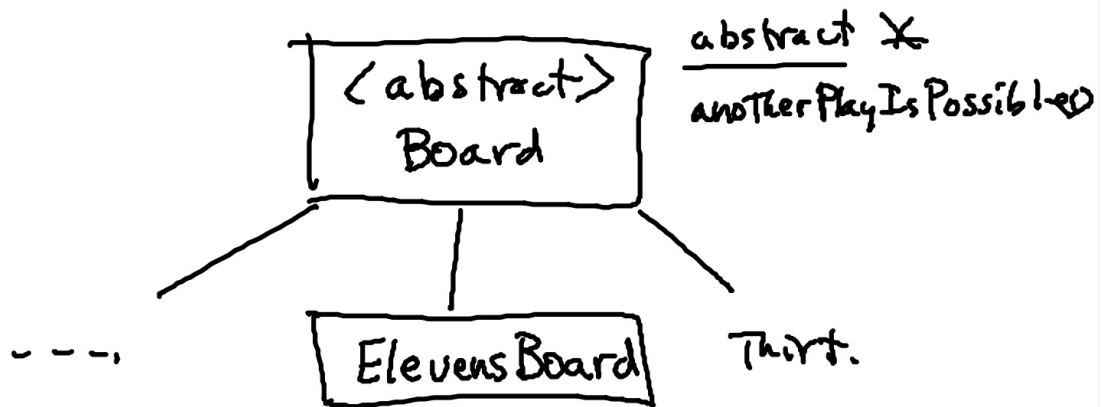

if so

increment "games lost"

if not

increment "games won"

start over
